Changes to Excel file format

As foreshadowed in the [September quarter release \(/statistics/labour/employment-and-unemployment/labour-account-australia/sep-2021#data-download\)](/statistics/labour/employment-and-unemployment/labour-account-australia/sep-2021#data-download), the Labour Account timeseries spreadsheets are now released in .xlsx format. While this change will improve usability, it may also require changes to automated macros or similar programs that call on the previous .xls format. This change does not impact on previously released data.
